THE SANDWICH EXPERIENCE

BRAND BOOK

T
D
O
B
A

BUT WHAT IS BOCATAS?

A casual dining concept, characterized by their broad definition of a sandwich. Does it go between two slices of a starch? (yes, a starch, as in tortillas, bread, or even plantains).

Then it is a sandwich!

Discover new flavours and combinations with the highest quality ingredients. Choose a new sandwich that you have never tried, or go with a classic.

OUR SOUL

MISSION

Offering a whole gastronomical experience to our customers and make them feel at home.

VISION

Become part of our customers' lives by bringing them joy and happiness through our Bocatas

VALUES

Quality

in each and every way possible, El Bocatas tries to deliver quality. Quality ingredients, quality service, quality communication, quality music.

Integrity

honesty, transparency and moral principles are some of the values that shape the brand.

Sustainability

our goal is to make sure that our activities do not impact negatively in any way.

Good vibes

because when you go out, good vibes are a must. Enjoying a good time, with friendly people and a great atmosphere is what you want and what we offer.

Primary Logo

In every possible setting, the positive logotype should be used.

Adapt to context

Whenever we encounter a dark background or a context where black lines are not easily read, we should use the negative logo. If the application requires a flatter logo to look good, the mandatory circle can be eliminated, but only as a last resource.

Empty Space

In order for our logo to read correctly and have enough contrast with the other elements around it, it will be necessary to leave an empty space of the equivalent of a quarter of its height on all sides and at all times.

LOGOTYPE

COLOUR PALETTE

Not so black, black: offers a high contrast and is always reliable when showing text over light backgrounds. This is not black, but almost.

Hungry orange: wanna be hungry? Try staring at our orange.

Refreshing green: fresh ingredients and fresh attitude, why not a fresh green to show it?

Calming beige: this almost white colour will bring stability and serve as a neutral colour when the application calls for it.

BRAND TYPOGRAPHY

Tawakkal Sans, which is a sans serif typeface that shows bold lines and overall shows a consistent look. Its modern appearance, combined with more classic and round arches, makes it an inviting typeface that portrays the brand's identity.

Gilroy font, in both Extrabold and Light typefaces is an easily comprehensible sans serif typography, that shows mostly straight lines and is used as a bold statement (extrabold) when using strong or eye-catching messages, or as a subtle and modern font (light) for long texts.

THE SANDWICH EXPERIENCE

The sandwich experience not only talks about the many sandwiches we sell, but also shows our customers that you are in for a good time, with quality food, great drink pairings, warm service and friendly ambience.

**GOOD VIBES?
GOOD SANDWICHES?
BOCATAS.**

Following the descriptor's idea, the brand slogan proposes to the customer the two main highlights of Bocatas. A great experience, with good vibes (a value) and good service, as well as good and enjoyable food.

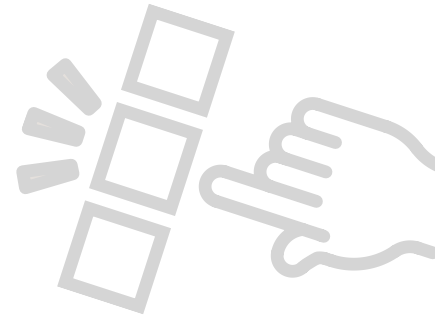

DESCRIPTOR

SLOGAN

VARIETY

We try to offer something for everyone, and the objective is that anyone can come and find a sandwich of their liking, even if they have dietary restrictions.

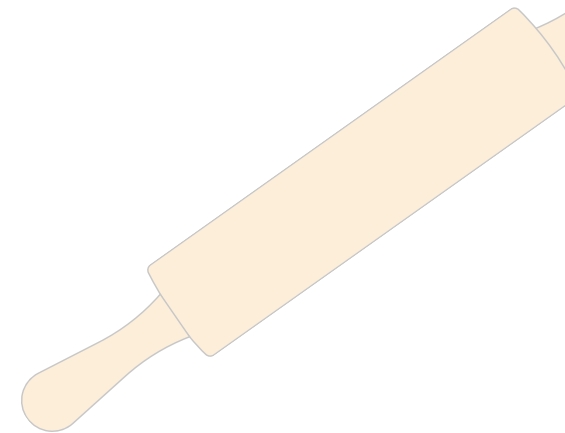

FRESH

In this case it not only refers to produce, which is also fresh, but also to the whole brand. Refreshing, as in innovative, modern, and surprising, is something that characterizes the brand.

HOMEMADE

Everyone knows that homemade food is amazing, but what is you could have restaurant-quality homemade food? We try to do that. By making everything ourselves, with love and attention, we can ensure the origins of our products, their quality and the absence of preservatives and other additives.

ATTRIBUTES

YOUNG AT HEART

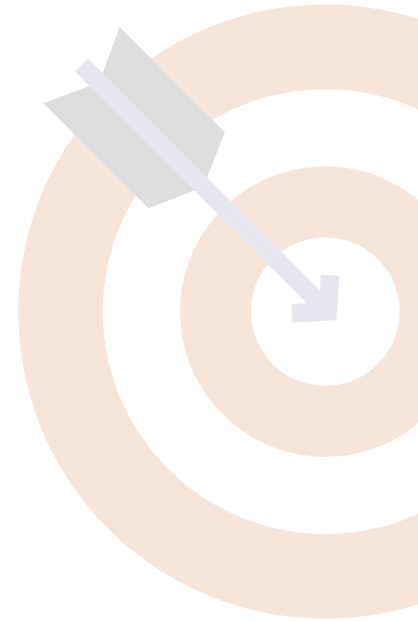

People of every age are welcome to bocatas, but our offer will appeal mostly to those that maintain an open mind and are willing to try new things. Younger and younger at heart people are going to feel at home with us.

ADVENTUROUS

Sandwiches are staples and safe foods for most people, but Bocatas does not offer your typical sandwiches. Their offer is aimed at those who want to try new flavours and new combinations.

FOODIES

Those people who love food, but not any food. Quality, freshness, and presentation are very valued, and in this category Bocatas excels.

07/27/2021 2	5	Nikolay Sklyarov	It felt like the people running this joint love their burgers and their food, it definitely tasted like they do. Prices are what you would expect form such a hotspot town, but it's fair enough. It is what you would pay in downtown Barcelona anyway. Staff were kind, caring, and great. The location itself is great too, hidden from the noise of downtown. There's chess indoors, and the AC is a blessing.	burgers, love, food, price, fair, kind, caring, great, location, hidden, chess, AC	Positive
